

# We're recruiting

## Site Engineers

### About the role

JS Search and Selection are proud to be partnering with Wensleydale Creamery on their latest recruitment drive.

The business was taken over by Saputo in 2021, and since then have invested significant money in to improving their operations across all departments. Thanks to this investment, we are now recruiting for multi-skilled engineers across their Hawes and Kirby Malzeard sites.

Working as part of the engineering team, the Engineer will be responsible for the maintenance of site equipment and infrastructure across the sites. This will cover the maintenance of equipment and high-speed processing and packaging lines, to ensure that the site production facilities and equipment are able to function with optimum efficiency and effectiveness.

Competitive Salary and day shifts

### Location

Wensleydale Creamery, Gayle Lane, Hawes and Main Street Kirkby Malzeard, Ripon HG4 3QD
